Diaper cake plan

3 tiers · 60 diapers in size 1 · about 14 in tall

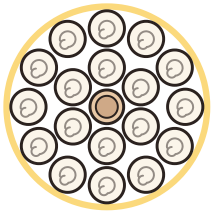

TO BUY

- [ ] **60** diapers in size 1
  2 small packs cover it: a pack holds 30 to 40.
- [ ] **60** small rubber bands
  One around each rolled diaper.
- [ ] **6 yd** of string or twine
  To tie each ring as you build it.
- [ ] **4 yd** of ribbon, 1½ in wide
  It goes over the string, and makes the bow.
- [ ] **1** round base, 14 in across
  A cake board, a pizza pan or a circle cut from a box.
- [ ] **1** paper towel tube
  It stands in the middle and keeps the tiers in line.
- [ ] **1** roll of tape
  For the tube and the ribbon's ends. Never on a diaper.

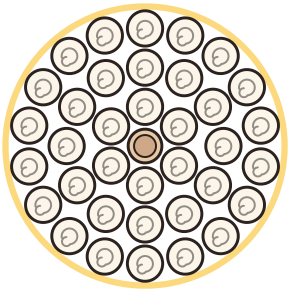

EACH TIER FROM ABOVE

Top tier
6 diapers
One ring of 6 around the tube

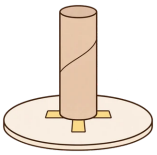

Middle tier
18 diapers
Two rings: 6 + 12

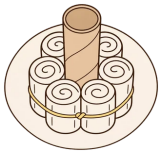

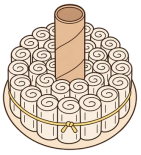

Bottom tier
36 diapers
Three rings: 6 + 12 + 18

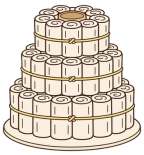

HOW TO MAKE IT

1. 
   Roll each diaper from its folded end. Put a small rubber band around it.

2. 
   Tape the tube upright in the middle of the base.

3. 
   Stand 6 rolls around the tube. Tie string around them.

4. 
   Add a ring of 12, then a ring of 18. Tie each one.

5. 
   Build the next tier on top with 6 and 12, then the top tier with 6.

6. 
   Wrap ribbon over the string on each tier. Set the bow on top.

The counts are for rolled diapers in size 1 around a paper towel tube. Brands and tighter or looser rolls change a ring by one or two, so fill each ring until it stands snug.

Diaper cake

For _____

60 diapers in size 1
about a week of diaper changes

Nothing is glued. Every diaper is ready to use.
