Measure your child's foot

Print at 100% (Actual size), not Fit to page.
This line is exactly 10 cm (3.94 in).

1. Lay the sheet on the floor and fold the bottom strip up against a wall.
2. Stand your child on it barefoot, heels to the wall.
3. Mark the tip of the longest toe on each foot.
4. The stripe with the longer foot's mark shows the size.

Typical sizes from shoe makers' charts. Check the chart of the shoe you buy.
